# READ. WRITE. LEARN. GROW

**NOEL TRAINOR**  
**FOUNDER AT KNOTION, MEXICO**

“ After months of painstaking research and digital reading platform comparisons, it became clear that LightSail is THE solution to support our students in meeting their English literacy academic goals, and to instill a love for reading in them.

## NO INTERNET? NO ELECTRICITY? NO PROBLEM!

LightSail’s Literacy-In-a-Box empowers rural communities without internet access to use the same literacy tools as students in big cities with internet, thereby empowering all to have equal opportunities to develop their literacy skills. Our Literacy-In-a-Box includes the entire LightSail platform of over 200 features and 150 data points for educators to review and monitor, in addition it can include 6,000 complimentary texts. It can operate with zero Internet for months at a time in extreme conditions, from -5° Celsius to 60° Celsius. Our Literacy-In-a-Box can be deployed on any Linux low cost device that can be found for around \$200. We are confident that Literacy-In-a-Box will aid in lowering illiteracy rates (raising literacy rates) around the world.

### REACH

**5 IN 10 PEOPLE GLOBALLY HAVE ACCESS TO INTERNET**

**1 IN 4 YOUTH IN DEVELOPING COUNTRIES ARE ILLITERATE**

**6 IN 10 PEOPLE IN THE DEVELOPING WORLD CITE LACK OF CONTENT AS A REASON FOR NOT READING**
